EDUCATION

Institute of Engineering & Technology, (IET)

Bachelor of Technology in Electronics and Instrumentation, 8.47/10

Lucknow, India

2019 - 2023

EXPERIENCES

SDE (Frontend)

TCS (Mumbai) | Client: Stellantis

Mar 2024 - Present

- Developed and maintained React.js user interfaces for an internal enterprise application using Material UI.
- Built reusable and responsive UI components aligned with business requirements.
- Integrated REST APIs developed in Spring Boot to fetch and display data in the frontend.
- Utilized React Query for API data fetching and caching, improving data handling and UI responsiveness.
- Debugged frontend and API integration issues to improve application stability.
- Worked in an Agile development environment following sprint-based delivery.

TECH USED – React Js | Javascript | TypeScript | React-Query | Jest | Material UI

Software Engineer & Instructor (Part-time)

OGCoder.com

Feb 2022 - July 2022

- **Development:** Collaborated with a small team to develop the frontend of a real estate client application using React.js.
- Conducted React.js training sessions for 20+ students, covering components, hooks, and state management.

TECH USED – React.js | Javascript | HTML | CSS

PROJECTS

SneakHub - E-Commerce Platform [\[Github\]](#) [\[Website\]](#)

Nov – Jan 2026

- **Google OAuth & Secure Auth** – Email/password + Google Sign-In with JWT tokens, OTP verification for account security
- **E-Commerce Platform** – Product browsing with filtering, persistent cart/wishlist management, dual payment gateways (Razorpay)
- **Order Management** – Real-time order tracking with timeline, user dashboard with order history, addresses.
- **Tech Stack** – Next Js | Typescript | Tailwind CSS | MongoDB | Express JS | Razorpay API | react-toastify

Portfolio Website [\[Github\]](#) [\[Website\]](#)

Jun – Sep 2025

- **Full-Stack Portfolio Platform** – Responsive portfolio with AI chatbot integration, smooth animations, dark/light theme toggle
- **Interactive Features** – Skills counter animation, expandable experience timeline, scroll animations, toast notifications
- **Performance & SEO** – Image lazy loading, preload hints, OG meta tags for social sharing, optimized for all devices
- **Tech Stack** – React Js | Tailwind CSS | Groq AI API | react-toastify

ACHIEVEMENTS

- Solved 500+ Competitive Programming Problems on Different OJs.
- Participated in TCS AI Engineering Excellence Expo, showcasing the Stellantis AI project to Senior leadership and Cross-Unit Stakeholders.
- Helped 10+ Students to get started with Programming and start their journey
- Helped a Stealth Crypto Startup with their Content Moderation and won 400 USD

SKILLS

- **Industry Knowledge** – Data Structures and Algorithms, Frontend Development
- **Languages** – HTML | CSS | Javascript | Typescript | C++ | Java | Golang
- **Technologies** – React.js | Next.js | Redux | Tailwind | React Query | Node.js | MongoDB | Express.js
- **Tools/Testing/Others** – Git | Github | Postman | Jest | Vitest | Vite | Jira | Agile/Scrum
